

# Chogori (K2)

*as seen from Godwin-Austen Glacier, Karakoram*

*Dr. Jules Jacot-Guillarmod (1902)*

Featured on the cover of *Alpinist 37!*

In 1902, an international team of six embarked on an ambitious expedition to the Karakoram. Their goal - the first ascent of K2 (8,611m). During their six-month expedition they achieved a high point of 6,525m, valuable data was collected from which the first map was produced, and the first known photographs of K2 were taken.

**Top of the World Books** is pleased to offer, from the Bob A. Schelfhout Aubertijn Collection, magnificent, never-before-published prints of this historic first photograph of K2. Prints are available in the following editions:
